SUMMARY

A Fullstack and MERN Stack developer with a Postgraduate Master's in Computer Applications, with an 8.07 CGPA, and skilled in building end-to-end web applications.

PROFESSIONAL EXPERIENCE

Fullstack Developer (Internship) (01/2024 – 4/2024)   **Cloud Booking Software Solution**

- Developed a cloud-based booking software solution during a 3-month internship, utilizing HTML, CSS, JavaScript, Node.js, React, MongoDB, Git, and GitHub.
- Designed and implemented user interfaces with HTML, CSS, and JavaScript to ensure an intuitive and visually appealing experience for users.
- Utilized Node.js for server-side development, creating robust APIs to handle data transactions and business logic efficiently.
- Leveraged React for building interactive and dynamic components, enhancing the user experience and interactivity of the application.
- Implemented database solutions using MongoDB , ensuring data persistence and integrity across the application.
- Managed version control and collaborated effectively with team members using Git and GitHub, ensuring smooth integration of changes and code management.
- Acquired knowledge of website and project deployment, including hosting solutions, to ensure seamless accessibility and availability of applications to users.

TECHNICAL SKILLS

Programming Languages: Javascript NodeJs ,Express,SQL,OOPS.
Frontend Technologies: React,Javascript,HTML5,CSS3,Bootstrap.
Blackend Technologies: NodeJs , Express,Redux.
Databases: MySQL, MongoDB, Oracle, DBMS.
Version Control Tools: Git and GitHub ,JIRA
Ux Tool: Figma
Other Software's/Tool's: VScode, Postman

EDUCATIONAL QUALIFICATION

- **Master Of Computer Application (MCA)** in Computer Technology from BAMU University.   **2022 – 2024**

PERSONAL PROJECTS

Hospital Management & Doctor Appointment System.

- Developed a Hospital Management and Doctor Appointment System.
- Utilized React to create a responsive and intuitive user interface.
- Implemented backend services using Node.js and Express.js.
- Conducted thorough API testing with Postman to ensure reliability and performance.
- Used MongoDB for efficient and flexible non-relational database management.
- Enabled seamless appointment scheduling and patient record management.
- Delivered a high-quality, end-to-end solution enhancing overall healthcare service efficiency.
    Tools and Techniques: React ,Javascrpit,NodeJs,ExpressJs,MongoDB,Postman,Git&GitHub

BookStore Web Application .

- Developed a comprehensive Bookstore Web Application.
- Utilized React to create a responsive and user-friendly interface.
- Implemented backend services using Node.js and Express.js.
- Conducted thorough API testing with Postman to ensure reliability and performance.
- Used MongoDB for efficient and flexible non-relational database management.
- Enabled seamless browsing, purchasing, and order management for users.
- Integrated a secure payment gateway for safe and efficient transactions.
- Implemented email integration for order confirmations and customer communication.
    Tools and Techniques: React ,Javascrpit,NodeJs,ExpressJs,MongoDB,Postman,Git&GitHub
